## CARICATURES

Welcome to the Caricature portfolio of Paul Mooney. Mooney Fine Art is an art studio that specialises in the three related areas of Illustration, Design and Fine Art. I accept commissions for caricatures of family and friends as well as caricatures of famous people.

If you are thinking of a unique and fun gift for someone, a caricature of a family member or friend can make a really great gift at an affordable price. Caricatures can suit almost any occasion such as Birthdays, Anniversaries, Weddings, Graduations, Retirements or any special occasion.

# MOONEY FINE ART

The caricatures that I create are done to give a sense of fun and really look like the person. To suit your taste and budget, they come in a range of styles from simple black and white cartoon caricatures to full colour caricatures with an additional background.

To make it more personal you can have more details included with the caricature to add to the fun. Details can include things such as the person's hobbies, interests, occupation, pets or favourite sayings.

I generally work from photos to create the finished caricature. Some things to consider when sending photos:

- If you can send several photos of the person, that would be ideal although I often work from only one photo.
- Good quality photos showing the facial features clearly and showing part of their character will enable me to produce the best possible caricature.
- The best photos to work from are those with a 3/4 view - showing the face slightly side on.

For a free quote just send me an email and let me know:

- The size required
- If you would like a caricature of just the face or the face and body
- Whether you would like colour or black & white
- If you would like other details to be included

To discuss a caricature that you have in mind please contact me on the number below. I look forward to working with you.
